DR BEN HARRIS

NEUROPSYCHOLOGIST

Dr Ben Harris completed his Bachelor's degree with Honours from the University of Melbourne. He then went on to complete his Masters in Psychology and PhD in Neuropsychology. Dr Harris is a member of both the Australian Psychological Society and the College of Clinical Neuropsychologists.

Dr Harris holds the position of Senior Clinical Neuropsychologist with St Vincent's Health, Cognitive Dementia and Memory Service and Specialist Medical Clinics. He is also a Clinical Neuropsychologist for Warrigal House in Burwood, Victoria, and for Precision Brain Spine and Pain Centre in Kew, Victoria. Dr Harris has previously held positions of Senior Clinical Neuropsychologist with Monash Health in the Aged Persons Mental Health Service and Sub-acute Rehabilitation Unit, and with St Vincent's Health, Aged Psychiatry Team.

Dr Harris is accredited as an Independent Medical Examiner with TAC. He has a particular interest in acquired brain injuries, assessment and management of dementia, substance abuse disorders and general psychiatric conditions. His assessment specialties include neuropsychological assessment, medico-legal assessments and neurorehabilitation.
