DR JOHN BAKER

NEUROSURGEON

Dr John Baker obtained his MBBS qualification through the well known University of Queensland. He also holds a Fellowship of the Royal Australian College of Surgeons under a Neurosurgery and has produced independent medico-legal reports for legal, insurance, government, superannuation and workers compensation sectors.

During his career he has encountered numerous and continues to hold an interest in head injuries, particularly in the area of intracranial pressure monitoring. Dr Baker also has experience with and expertise in the area of Transsphenoidal surgery. Currently Dr Baker is working as a visiting neurosurgeon across multiple institutions in the Greater Brisbane area including both the Mater Private and Greenslopes Private Hospitals.
