BIOGRAPHY

I am currently working predominantly with Justice Health and Forensic Mental Health Network. I have held senior leadership positions for many years in the organisation including Deputy Clinical Director, Forensic and Long Bay Hospitals and Clinical Director, Custodial Mental Health (which provides state-wide mental health service to correctional centres). I also have clinical research skills which has led to the publication in peer-reviewed journals.

I have been involved in the academic teaching program of the University of Auckland, University of Otago, UNSW and UWS and have demonstrated teaching skills. I have held the position of Honorary Clinical Lecturer in Medicine at the Department of Psychological Medicine, University of Auckland. I am a conjoint lecturer at UNSW, and conjoint senior lecturer UWS.

I have formal training in medical administration and health management (MBA, RACMA and through CEC and HETI). I have also completed a Masters of Forensic Mental Health (UNSW) and advanced training certificate for forensic psychiatry (RANZCP). Further, I am a foundation member of the RANZCP Faculty of Forensic Psychiatry.

I have completed a law degree (Juris Doctor) at UNSW. I am completing the Company Directors Course through AICD.

I am committed to medicine and the role that the clinician has in the holistic care of patients and their families within the constraints of our healthcare system. I am highly motivated and hard-working with an excellent academic track record. I work well in a team and have excellent communication skills, developing good rapport with patients and staff.
