## **BIOGRAPHY**

David Love is a specialist Orthopaedic Surgeon in Melbourne with expertise in trauma and deformity correction, hip and knee arthroplasty and pathology. He attended The University of Melbourne for his medical training and completed his basic surgical training and advanced surgical training through the Royal Australian College of Surgeons and the Australian Orthopaedics Association.

Following completion of specialist orthopaedic training he has worked as a full time trauma surgeon at the Royal Melbourne Hospital and after 18months travelled overseas to gain expertise in hip and knee arthroplasty with Professor Robert Bourne, a world expert in this specialised area of orthopaedics.

Dr David Love has also completed fellowships with Mr John Bartlett, world famous knee surgeon and also with Professor Leo Donnan at the Royal Children's Hospital, Melbourne which included extensive training in using external frames to correct deformity and utilising the ilizarov deformity correction technique.
