Consultations (Present)

Injury Management Consultant through SIRA.

This role involves the assessment of injured workers and discussion with treating stakeholders to resolve issues and barriers that prevent a safe and timely return to work. (2004 to present)

Development of medical standards and the pre-employment medical examinations for Department of Justice and Community Services, Victoria for the roles of Prison Officer and Youth Detention Workers through UHG.

Ongoing role in assessing individual applications in more complex cases and their suitability for the role. Further involvement in developing medical assessment standards and preemployment assessments for the roles of Hotel Services Officer and Occupations Services Officer who perform their duties as part of the COVID hotel quarantine requirements in Victoria. (Sept 2020 to present)

Clearing Police Medical Officer responsible for the consistent application of the medical standards for all NSW Police Recruits through UHG. This role involves the review of pre-employment medical examinations performed by other medical practitioners and ensuring that all applicants meet the specific requirements of NSW Police in line with their medical standards, ensuring quality and consistency of other medical practitioners who perform the medical assessments, and liaising with NSW Police to ensure all key components are met. (2010 to present)

Responsibilities have included the development of medical requirements and ongoing oversighting of pre-employment medical examinations to ensure applicants meet the role of Special Constable for the NSW Police Force through UHG (2010 to present)

Development and application of medical standards for affecting applicants for the role of Youth Detention Worker within the Department of Justice Queensland conducted in 2012. Ongoing oversighting role to ensure that applicants meet the requirements for the role through UH (2012 to present)

Assessment and advice to employers regarding health and safety issues in the workplace including recommendations about health surveillance of workers exposed to hazards in the workplace environment (2009 to present)
