DR THOMAS O'NEILL

PSYCHOLOGIST

MINDSENSE
CENTRE OF PSYCHIATRY

Overview

With over three decades of experience as a Psychologist, Dr Thomas O'Neill prioritises continuous professional development to uphold the highest standards of care. Through regular individual supervision, peer review, and diligent study of relevant literature, Dr O'Neill ensures that his skills and knowledge remain current and informed.

Attending numerous seminars, workshops, and conferences annually, both nationally and internationally, Dr O'Neill stays abreast of advancements in his areas of expertise, which encompass working with diverse populations across the lifespan. Notably, he frequently participates in conferences organised by the APS's College of Clinical Psychology and College Forensic Psychology, while also dedicating attention to seminars focusing on the intersection of psychology, law, and ethical decision-making.

Dr O'Neill's extensive clinical background includes roles such as Clinical Psychologist at Cumberland Health & Research Centre at Sydney University, Lidcombe, where he served from 1994 to 2000. Prior to this, he contributed to the Child & Family Team at Burwood Community Health Centre from 1992 to 1995 and honed his skills as a Psychologist with the Diagnostic & Assessment Team at Southern Sydney Developmental Disability Services in Kogarah from 1988 to 1992. Additionally, serving as a Locum Psychologist at Marsden Hospital in Westmead from 1987 to 1988.
