

Dr Ales Aliashkevich

NEUROSURGEON AND SPINE SURGEON | FRACS MD

Overview

Dr Ales Aliashkevich specialises in brain, spine, and nerve injuries, with over 20 years of experience in providing medicolegal services. He offers independent medical examinations, comprehensive reports, detailed file reviews, teleconferences, consultations, and expert witness opinions on a wide range of neurosurgical conditions.

As an actively practising surgeon, Dr Aliashkevich is well-versed in advanced diagnostic modalities, including state-of-the-art radiological and neurophysiological investigations. His assessments are based on current evidence-based treatment guidelines, with a focus on the value of multidisciplinary approaches. He also prioritises the use of minimally invasive, motion-preserving surgical techniques when appropriate.

Dr Aliashkevich's thoroughness in history-taking and his attention to detail in clinical presentation and investigations distinguish him from many other medicolegal professionals.
